About Me

Aspiring Front End Developer currently studying Management Information Systems at MTI University. Passionate about building responsive and modern web projects using HTML, CSS, and JavaScript. Actively learning frameworks like React and Vue.js through personal projects and online courses.

Work Experience

Junior Front End Developer

- Completed 10+ responsive web projects using HTML and CSS, including landing pages, personal portfolios, and basic multi-section layouts.
- Applied layout techniques using Flexbox and Grid, focusing on clean design.
- Used JavaScript mainly for creating simple animations and enhancing user interactions; currently learning core JavaScript concepts step by step.

Hobbies

- Playing Football
- Making Jokes
- Reading Story Books
- Watching Movies
- Cooking
